GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

19.	Total value of properties under protest or not included on certified appraisal roll. ¹³ A. Current year taxable value of properties under protest. The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value under protest. ¹⁴ \$ 0 B. Current year value of properties not under protest or included on certified appraisal roll. The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. 27.	COUNTIES ONLY. Add together the NNR tax rates for each type of tax the county levies. The total is the current year county NNR tax rate. ²¹	\$ _____ /\$100

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 3: NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

SECTION 4: Voter-Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit’s expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Foregone Revenue Amounts divided by the current taxable value.³⁹ The Foregone Revenue Amount for each year is equal to that year’s adopted tax rate subtracted from that year’s voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year’s current total value.⁴⁰ In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the portion of the unused increment rate that was used must be backed out of the calculation for that year.

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042;⁴¹
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a);⁴² or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴³

Individual components can be negative, but the overall rate will be the greater of zero or the calculated rate.

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.⁴⁴

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁴ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁵

SECTION 7: Voter-Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁶

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁹

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).

INTRODUCTION

CITY OF GROVES

Mission Statement

The goals of the City Government are to create a strong, safe and clean community, foster a high quality of life, promote neighborhood strength and integrity, to support sound community and economic development and to conserve and wisely utilize City resources to safeguard the health, safety and welfare of City Residents.

July 19, 2024

To the Honorable Mayor and City Council Members:

Introduction

Per Article V Section 3 of the City of Groves Charter and Chapter 102 of the Texas Local Government Code, I am pleased to present for your consideration the proposed annual budget for fiscal year 2024-2025, beginning October 1, 2025. This balanced budget is intended to serve as:

1. A plan of financial operations embodying an estimate of expenditures for the next fiscal year and the means of financing them;
2. A management and operational plan for allocation of resources during FY 2024-2025.

The budgetary and accounting policies contained in the budget conform to generally accepted accounting principles (GAAP) as established by the Governmental Accounting Standards Board. The accounts of the City are organized based on funds and account groups, each of which is considered a separate budgetary and accounting entity. Within the budget, the City's various funds are grouped into general fund types and proprietary fund types. The budget is prepared on the GAAP basis, with all governmental funds determined using the modified accrual basis of accounting and proprietary funds established using the accrual basis of accounting.

Despite the disruptions created by these circumstances, the challenges for staff at the beginning of the budget process were to:

1. Continue to look for efficiencies in operations,
2. Reduce expenses where possible, and
3. Identify revenue opportunities that have been overlooked.

Consequently, staff developed budget proposals for their departments with not much more than personnel and maintenance expenses at the same level as FY 2023-2024. Budget requests were reviewed by the City Manager and Director of Finance. The following sections highlight points of interest in the budget.

Economic Outlook

Groves is a residential city located adjacent to the City of Port Arthur and eleven miles southeast of Beaumont. Together with the adjoining cities of Nederland and Port Neches, they are referred to collectively as the Mid-County Cities. As demonstrated by the residential/commercial utility account mix of 95%/5%, the community is overwhelmingly residential with many of the city's residents employed directly or indirectly in nearby industrial plants. The industrial complexes of the Beaumont-Port Arthur-Orange Golden Triangle transform approximately 28% of all the world's petroleum into other products. This unique strategic position in the global and national economy has a definite impact on the City's fiscal health.

Like all other local governments, Groves faces inflationary pressures that are typically higher than most citizens and businesses experience. However, for the 12 months ending May 2024, the U.S. Municipal Cost

Index (designed by *American City and County* magazine in 1978 to show the effects of inflation on the cost of providing municipal services) increased 1.9 percent, while the U.S. Consumer Price Index (CPI) was uncharacteristically higher at 3.1 percent during the same period.

As of July 2024, The Texas economy has remained resilient despite high interest rates., according to the Texas A&M Real Estate Research Center. Texas worker sentiment remains resilient as in April, with a participation rate of 64.2 percent. The unemployment rate remained at 4 percent and has stabilized for ten consecutive months between 3.9 and 4 percent. Texas' all-commodity exports dipped 1.8 percent MOM in May but increased 5.6 percent YOY. Generally speaking, demand for Texas oil and natural gas exports, the state's largest export, remains subdued. In May, oil and gas exports were still hovering around \$12 billion and increased by 2.4 percent sequentially from April. The Texas Leading Economic Index (a measure of future directional changes in the business cycle) fell slightly to 128 (1987=100) in May. Over the past six months, the leading indicator has not demonstrated a strong positive or negative trend. Nominal average hourly earnings increased marginally by 0.2 percent MOM to \$32.73 and 5.5 percent YOY. Texas consumer confidence rose in May but has been falling since January of 2024.

Notable Policies and Programs

Fund Balance Policy

While there is no statutory or regulatory requirement for a minimum fund balance, the generally accepted practice and rule of thumb is to have a fund balance of about 90-120 days. As a coastal community, a catastrophic storm such as 2017's Hurricane Harvey is always a dangerous possibility. Consequently, there is a need to have a fund balance greater than 90-120 days so that the City can be better prepared to respond to a disaster and maintain continuity of government and operations. The FY 2024-2025 budget establishes the policy of maintaining a minimum balance of 180 days in the General Fund, Solid Waste Fund, and Systems Fund. It will likely take the City a few budget cycles to reach these declared goals.

Health Insurance

Employees are currently provided medical insurance through Blue Cross Blue Shield of Texas. Medical insurance is an important recruitment and retention benefit but also is a significant personnel expense.

Beginning with FY 2023-2024 the City began the practice of requiring employees to contribute part of the employee insurance premiums. Using an insurance broker, the City anticipates receiving multiple bids for insurance for the FY 2024-2025 year. Unfortunately, the bids will not be available until the beginning of August 2024. For purposes of this proposed budget, a 15% increase in medical insurance was used as a placeholder. The actual costs will be used in an amended document once they become available and adjustments made accordingly.

TMRS Vesting

The employee retirement is through the Texas Municipal Retirement System (TMRS) and has a 10-yr vesting requirement. Out of the 909 entities in the TMRS system, 866 have 5-year vesting and 43 have 10-year vesting and TMRS no longer offers 10-year vesting because. While most of the cities in the Groves area have 10-year vesting, they also have a 7% contribution rate while Groves has 6%. Increasing vesting to 5 years improves our labor competitiveness at a relatively minimal cost of \$18,865.

Coast of Living Increase

The City typically alternates between a step increase and a cost of living increase from one year to the next. The FY 2024-2025 Budget includes a 5% step increase to help attract and retain quality employees. Additionally, changes are expected resulting from collective bargaining negotiations with the Groves Professional Firefighters Association that will not conclude until the end of July.

Fleet Management

The average age of the City's non-emergency passenger vehicle fleet is 10.2 years. The reliability, cost of maintenance, and poor public appearance of the older vehicles are impacting department efficiencies and effectiveness. If the City were to continue to replace vehicles at the same pace it has been, it would take an average of 12.3 more years to replace the entire fleet. Faced with the severe fiscal constraints we have, staff sought out an approach that is expected to reduce fuel and maintenance expenses significantly. The FY 2024-2025 Budget includes a lease program with Enterprise Fleet Management. As a pilot project, 19 vehicles from the existing fleet would be sold and 14 new units leased. The net saving to the City through this lease program is projected to be almost \$183,000 over the next five years.

Ad Valorem Tax Rate

Over the last few legislative sessions, the State of Texas has significantly restricted the ability of local governments to increase *ad valorem* taxes; however, it does provide for a *de minimis* tax rate. The *de minimis* rate is a tax rate calculation designed to give smaller taxing units, including cities with a population of less than 30,000, some flexibility to budget for extraordinary costs that may not be possible under the three-and-a-half percent voter-approval tax rate. The *de minimis* rate is the sum of a taxing unit's no-new-revenue M&O rate; the rate that, when applied to a taxing unit's current total value, will impose an amount of taxes equal to \$500,000; and a taxing unit's current debt rate. The FY 2024-2025 Budget includes the *de minimis* tax rate. The impact on the average taxable residential property in Groves is a \$78.50 increase over the previous year.

Sales Tax

Sales tax is the second single largest source of General Fund revenue and continues to set monthly and rolling 12-month totals. The total projected for FY 2024-2025 is \$2,200,000, a 22.2% increase (the Sales Tax Fund has a similar increase). While comparatively large, this is still a conservative number in light of the record-setting actual monthly and rolling 12-month totals.

Utility Rates

The City's water and wastewater systems need significant rehabilitation. While recent years have seen efforts to address some of these concerns, such as the replacement of the SCADA system and the sewer main pipe bursting and manhole replacements, much more needs to be done. The City hired NewGen Strategies and Solutions to conduct a study and develop a five-year rate plan that address these four objectives:

1. Design a rate plan to meet rising costs over five years;
2. Fund over \$20 million in capital improvements;
3. Build up cash reserves to 180 days of operating costs over five years; and
4. Introduce tiered water rates to promote water conservation.

The residential base rate for water in FY 2024-2025 will increase 30% to \$15.50 and the volumetric rate introduces tiers with a 25% increase between tiers up to 10,000 gallons and a 50% increase for consumption over 10,000 gallons. The residential base rate for wastewater in FY 2024-2025 will also increase 30% to \$15.50. Commercial customers will see their minimum bill increase to \$31.00 for both water and wastewater. The projected net increase to the typical 4,000-gallon-per-month residential customer will be an increase of \$13.53 to their monthly bill. A 10,000-gallon-per-month business customer will see a \$66.19 larger bill.

Unfunded Issues

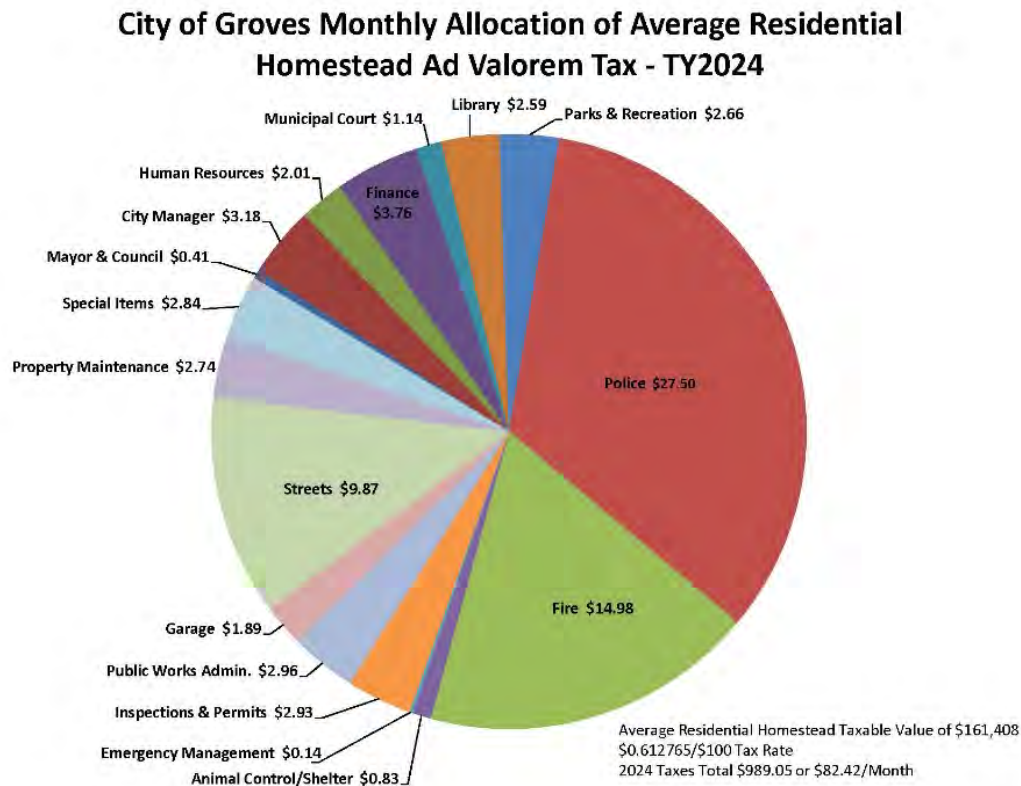

Three capital issues that are maintenance concerns now and are issues that also need addressing with new growth are not addressed in the FY 2023-2024 budget:

- (1) Streets and drainage;
- (2) Water system improvements;
- (3) Wastewater system improvements;
- (4) City Hall renovation or replacement;
- (5) Old Fire Station remediation or demolition; and
- (6) Transportation fee.

Making significant progress on these infrastructure issues will require issuance of general obligation (GO) bonds, certificates of obligation (CO), tax notes, or some other debt instrument. The City Council has begun addressing these issues by hiring NewGen Strategies to conduct the rate study discussed previously and adopting the first year of the study’s five-year rate plan. Council has also had a preliminary workshop discussion on a Transportation Use Fee as one potential source to fund street and drainage infrastructure. All six of these items require in-depth workshop discussions by the City Council and ultimately a vote by the citizens of Groves.

Taxes and Growth of City Government

The City must always be vigilant that there is not unnecessary growth “creep” from one year to the next, which is relatively easy to do through expenditures, taxes, or other ways that, at the margins, from one year to the next do not amount to much but cumulatively add up to a meaningful amount. The proposed *ad valorem* tax rate of \$0.612745 is 6.89% above the FY 2023-2024 rate of \$0.609690. The proposed rate will bring in approximately \$616,631 in additional revenue with the owner of an average taxable residential home paying about \$73.08 more than the previous year. The pie chart below demonstrates how the average residential homestead tax would be allocated each month if the *ad valorem* tax of \$989.05 was billed monthly (i.e., \$82.42).

When examining the growth of government, one cannot look at a single metric alone and definitively state that there has been growth because it lacks context. For example, the population of Groves from FY 2013-

2014 to FY 2023-2024 has grown 5.0%. When considering the growth of staffing, there certainly are more employees now versus 12 years ago, but when normalized by staff per 1,000 population, it becomes apparent that staffing has increased from 4.88/1,000 to 5.86/1,000, for an increase of one person - a different story than if all an observer looked at was a change in total full-time employees over that 12-year period.

Lastly, a review of total general fund spending from FY 2013-2014 to FY 2023-2024 has decreased in real terms 2.86% from \$766.40 to \$709.35. When this figure is adjusted for inflation using the Municipal Cost Index discussed earlier, the *per capita* spending in the General Fund shrank by -7.44%. When the *per capita* spending is adjusted for the 34.5% MCI inflation, Groves city government has contracted by 31.18%. The bottom line is that the City of Groves has continued to do more with less but there must be an acknowledgement that at some point the City will end up doing less with less or have to add more resources to the budget.

Conclusion

Groves is at a fork in the road. The desire of city councils to maintain the lowest *ad valorem* tax rate possible is understandable and important for attracting residents and businesses to have a tax rate and services that are competitive with other communities. As the community nears build-out and its existing infrastructure meets or continues to exceed its service life, the current leadership and its constituents must come to terms with prior leaders' decisions to meet the desires of their contemporary constituents for low taxes and fees. The resulting high demand for capital investment and lack of revenue opportunities places significant constraints on the City's ability to meet effective and efficient operational requirements, regulatory demands, and quality of life desires of citizens.

The 2019 Texas Legislature passed Senate Bill 2 which, among other things, limits *ad valorem* tax increases beginning in 2020 to 2.5 percent without triggering an automatic rollback election. In order to restore the City's fund balance to the policy objective of 180 days as quickly as possible, the FY 2019-2020 budget adopts a rate that is 5.2 percent above the no new revenue rate. The City's healthy fund balance is a critical component of its successful response and recovery to Harvey and restoring its fund balances quickly will be important to the community's future.

There are three issues with revenue and expense impacts that require consideration in the short- to medium-term, specifically:

1. Continuing investment in the City's information technology;
2. Development and funding of a street reconstruction plan; and
3. Continuation of the erosion of municipal authority from statutory changes made by the Texas Legislature concerning appraisal caps, expenditure ceilings, and overall revenue limits.

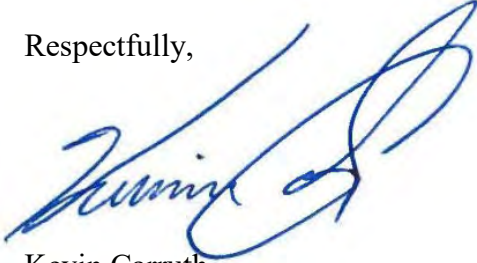

Each of these issues will require thoughtful and deliberate consideration by the City Council, together with city staff, for development and commitment to a budget strategy to meet future demands.

The proposed FY 2024-2025 budget is conservative in its revenue estimates and expenditures and represents a maintenance only program. The budget attempts to begin a fiscal recovery and by making strategic investments and rebuilding reserves while mitigating the risks posed by Groves' somewhat limited economy, modest scale, and threat of strong storms.

City government is the form of government that has the widest-ranging impact on the daily lives of our citizens. Meeting the fundamental health, safety, and welfare needs of our citizens is essential to a progressive and successful community and as presented, this budget will ensure the safety of our citizens and enhance their quality of life while providing an environment for successful development.

I appreciate the efforts of staff during preparation of the budget in a year made extraordinarily difficult by fiscal circumstances and transitions in leadership. Additionally, I wish to extend my thanks to the City Council for its willingness to take the time to understand the hard choices facing us and to share the Council's vision with staff. Such comprehension provides context and background to better grasp the budget and also enlightens staff's awareness of Council's priorities.

Respectfully,
